ENVIRONMENTAL POLICY

***Parker Filtration Canada-Laval, Québec / Division of Parker Hannifin Canada;
Design, develop, manufacture, and sale of filtration, exhaust and air control products
and systems for locomotives and other large engines.***

Our Environmental Policy is to be a responsible corporate citizen in protecting the environment. We recognize and believe in the importance of safeguarding natural resources and the global environment. We are committed to our employees, our community and our customers and their understanding of the need for environmental stewardship. We are committed to the concept of continuous improvement in our environmental performance. Parker Filtration Canada / Division of Parker Hannifin Canada pledges to implement and operate our **Environmental Management System** to further enhance our performance. Accordingly, we have made a commitment to the following environmental principles:

- *We shall take a proactive approach to environmental issues.*
- *We shall seek to comply with environmental laws and regulations.*
- *We shall strive to minimize or eliminate pollution and the generation of waste.*
- *We shall monitor compliance with environmental regulations, including our corporate and customer specific requirements.*
- *We shall strive to conserve the use of natural resources.*
- *We shall train employees to comply with environmental requirements.*
- *We shall respond to the environmental concerns of our employees and the communities in which we operate.*
- *We shall implement written procedures to carry out these principles.*

This policy shall be communicated to all parties interested in the performance of our environmental management system.

Steve Leduc, Division Manager
